

ParentPay eDm²

Developed by ParentPay, eDm² is a unique e-Dinner money management tool designed to enable schools and caterers to manage all aspects of school meals online, beyond just the collection of funds. Each child has their own secure account with balance and credit limit maintained by the system.

eDm²

- manages your school meal register showing exactly how many meals will be served at breakfast, break, lunch and even after school for single or multiple schools
- shows the number of pupils entitled to FSM and reports on FSM uptake
- displays money collected and banked, with all income fully reconciled and hassle free
- shows debt owed, by which parents and/or in which schools
- provides management reports with everything schools and caterers need, including historical trends across all schools
- offers a socially inclusive solution for a full cashless school with cash collection at local convenience stores through PayPoint
- reduces the risks associated with children carrying cash to school
